

## Site Enhancements:

Image Optimization for improved loading speed:

- Enhances user experience

Solved “disappearing” menu icon issue:

- Now appears after click/hover
- Users can navigate through the site without any confusion

Visual Improvement(s)

Responsive: replaced “float” usage:

- Centered content using flexbox

Removed spacing issue:

- Closed gap between the end of page contents and the footer

Added a Thank You page:

- Keeps site visitors engaged and confirms the submission of their messages.

Added wrappers to better present the contents of the site and to help with the readability.
